EXECUTIVE DIRECTOR'S REPORT

Dr. Ross began by presenting the following quarterly reports:

- Budget Report—Expenditure and Revenue Detail FY23 Q2
- Enforcement Report/Investigation Summary Data FY23 Q2
- Licensing/Exam Detail FY23 Q2

HB509—School Psychologist regulation. Dr. Ross updated the Board on the implications of HB509, which has been enacted and transfers to the Board the regulation of the 3,000 school psychologists licensed by the Ohio Department of Education (ODE) and all future applicants for a license to practice school psychology in a school setting. He has established a dialogue with the ODE Licensing section and is beginning a transparent process that will result in a strategy to transfer licensing, enforcement, and IT processes to the Board before the effective date of January 1, 2025. The need for significant additional funds for database programming was discussed, and this will likely be managed through the Controlling Board as cost estimates are clarified later in 2023.

SB131-Universal reciprocity: Rule amendments for approval. Dr. Ross reviewed the passage of SB131 and the implications for the Board. The new law, effective April 5, 2023, will require licensure based on reciprocity for applicants who have been licensed and practicing in another U.S. jurisdiction for a minimum of one year. The law retains the "senior psychologist" pathway for Canadian psychologists licensed at least 10 years. To implement the law, he has been working with the eLicense Ohio team to design a new application type for those who will qualify for licensure by reciprocity. To formally implement, he proposed a series of rule amendments to clarify the requirements and processes for licensure via reciprocity for psychologists, school psychologists, and Certified Ohio Behavior Analysts (COBA). He reviewed each proposed change and the rationale:

COBA

Enacted changes to our law in SB131, effective 4/5/23:

Section 4783.04 | Application for certificate; eligibility.

(A) An individual seeking a certificate to practice as a certified Ohio behavior analyst shall file with the state board of psychology a written application on a form prescribed and supplied by the board. To be eligible for a certificate, the individual shall do all of the following:

- (1) Demonstrate that the applicant conducts the applicant's professional activities in accordance with accepted professional and ethical standards;
- (2) Comply with sections [4776.01](#) to [4776.04](#) of the Revised Code;
- (3) Demonstrate an understanding of the law regarding behavioral health practice;
- (4) Demonstrate current certification as a board certified behavior analyst by the behavior analyst certification board or its successor organization or demonstrate completion of equivalent requirements and passage of a psychometrically valid examination administered by a nationally accredited credentialing organization;
- (5) Pay the fee established by the state board of psychology.

(B) The state board of psychology shall review all applications received under this section. The state board of psychology shall not grant a certificate to an applicant for an initial certificate unless the applicant complies with sections [4776.01](#) to [4776.04](#) of the Revised Code. If the state board of psychology determines that an applicant satisfies the requirements for a certificate to practice as a certified Ohio behavior analyst, the state board of psychology shall issue the applicant a certificate.

(C) The board shall issue a certificate to practice as a certified Ohio behavior analyst in accordance with Chapter 4796. of the Revised Code to an applicant if either of the following applies:

- (1) The applicant holds a certificate or license in another state.
- (2) The applicant has satisfactory work experience, a government certification, or a private certification as described in that chapter as a behavior analyst in a state that does not issue that certificate or license.

Proposed rule amendments to implement SB131

4783-1-01 Application for certification.

- (A) All applicants for certification as a certified Ohio behavior analyst shall file an application with the board, under oath, in a format prescribed by the board and accompanied by the appropriate fee.

 - (2) Not less than three letters of reference...[NO CHANGES FROM HERE ON]

4783-4-01 Requirements for certification as a certified Ohio behavior analyst.

With regard to such requirements, [and notwithstanding reciprocity provisions in rule 4783-4-02 of the Administrative Code](#), the board hereby further prescribes that:

~~(A) Immediate certification shall be granted as a certified Ohio behavior analyst to persons certified as board certified behavior analysts by the "Behavior Analyst Certification Board" who can demonstrate active practice as an applied behavior analyst and who make application within one year of the effective date of this rule without being required to comply with other requirements in section 4783.04 of the Revised Code so long as the following requirements are met:~~

4783-4-02 Exceptions to requiring verification of certification by the behavior analyst certification board; reciprocity.

[Pursuant to division \(C\) of section 4783.04 of the Revised Code and ~~Upon upon~~](#) application by an applied behavior analyst licensed or certified by the licensing department of another state, a territory, or the District of Columbia, who wishes to practice in this state, the state board of psychology ~~may~~ [shall](#) issue a certificate to practice applied behavior analysis without requiring written verification from the "Behavior Analyst Certification Board" provided he/she also:

(d) Held a psychologist license, certificate, or registration required for practice in ~~another United States or a~~ Canadian jurisdiction for a minimum of ten years and meets educational, experience, and professional requirements established under rules adopted by the board.

Section 4732.12 | Grading examinations.

If an applicant for a license issued by the state board of psychology to practice as a psychologist or school psychologist receives a score acceptable to the board on the appropriate examination required by

section [4732.11](#) of the Revised Code and has paid the fee required by section [4732.15](#) of the Revised Code, the board shall issue the appropriate license.

The board shall issue a license to practice as a psychologist or school psychologist, as appropriate, in accordance with Chapter 4796. of the Revised Code to an applicant who holds a license in another state or has satisfactory work experience, a government certification, or a private certification as described in that chapter as a psychologist or school psychologist in a state that does not issue that license.

ORC 4796 allows boards to set degree and training requirements at a "national standard" if one exists "required by no fewer than 45 states." Therefore, we can require that their relevant license be issued based on requirements for: a doctoral degree in psychology (which is required in almost all states), a minimum of 3,000 hours supervised training, and a passing EPPP score.
